DETAILED ACTION

Claim Objections

Claims 1-5 are objected to because of the following informalities: the claims have some unclear and inexact terms; some examples are: (claim 1, lines 6-7) "holding member get a predetermined length", and (claim 1, lines 8-9) "is collapsible to be received in", and additionally, (claim 2, line 4-5) "and to be said holding member" and "directly attracted to attach to". Appropriate correction, to all five claims, is required.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: the claims as supported by the specification differs from the prior art in that it does not teach an auxiliary focusing tool for laser marking in which the measuring kit is collapsible and is contained in the holding member for storage. Additionally, the holding member is of a predetermined length and perpendicular to a working surface.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See US PTO-892.
